

# OLAMIDE WILLIAMS

Operations Research Analyst | Mathematical Modeling & Optimization

Raleigh, NC | (919) 771-3788 | olamidewilliams23@gmail.com

## PROFESSIONAL SUMMARY

---

Operations Research professional with an M.S. in Operations Research (optimization, deterministic modeling, dynamic programming, game theory) and a B.S. in Mathematics. Skilled in translating ambiguous, real-world problems into structured mathematical models that support data-driven decisions. Background spans business analysis, process evaluation, and reporting across fast-paced corporate environments, with hands-on experience in SQL, Power BI, and Excel-based optimization tools. Seeking to apply formal OR training to healthcare operations challenges such as capacity planning, resource allocation, staff scheduling, and process efficiency.

## CORE COMPETENCIES

---

Mathematical & Deterministic Modeling • Linear & Integer Programming • Dynamic Programming • Game Theory • Statistical Analysis • SQL • Power BI • Microsoft Excel (incl. Solver) • Process & Business Analysis • Data Profiling & Reporting • Performance Metrics Management

## EXPERIENCE

---

### Teacher Assistant

2022 – Present

*Raleigh Christian Academy — Raleigh, NC*

- Maintain accurate records of attendance, academic progress, and behavioral data to support individualized learning plans for 20+ students per term.
- Track developmental milestones and outcome measures, applying structured observation to inform tailored support strategies.
- Ensure consistent compliance with school and state recordkeeping and safety guidelines.

### Graduate Teaching Assistant — Mathematics & Statistics

2014 – 2015

*North Carolina Central University — Durham, NC*

- Led focused learning sessions clarifying core concepts in mathematics and statistics for undergraduate students.
- Reviewed and graded coursework with emphasis on analytical accuracy and consistency.
- Maintained detailed records of grades, attendance, and academic communications.

### Business & Reports Analyst

2013 – 2014

*Coca-Cola Nigeria Ltd. — Lagos, Nigeria*

- Performed data profiling across source systems to support mainframe reporting accuracy and integrity.
- Analyzed business processes to identify functional gaps, inefficiencies, and opportunities for system integration, supporting data-informed process improvements.
- Documented end-to-end process flows covering program logic, testing, and implementation to align cross-functional teams around project goals.
- Reviewed and consolidated weekly performance and testing reports to track project and process metrics.
- Consulted with internal stakeholders to define reporting requirements, scope, and analytical objectives.
- Directed a cross-functional team from project initiation through final delivery, coordinating data, resources, and timelines.

## EDUCATION

---

### Master of Science in Operations Research

December 2020

*Florida Institute of Technology — Melbourne, FL*

**Key Coursework:** Deterministic Modeling, Mathematical Statistics, Data Analysis, Optimization, Game Theory, Dynamic Programming

### Bachelor of Science in Mathematics

January 2013

*University of Ilorin — Ilorin, Nigeria*

**Key Coursework:** Probability & Statistics, Real Analysis, Risk-Based Decision Analysis, System Reliability

## CERTIFICATIONS

---

Certified Scrum Master (CSM) • Certified Scrum Product Owner (CSPO) • AWS Certified Solutions Architect – Associate

**In Progress:** Health Informatics Specialization (Johns Hopkins University) • CAHIMS (Certified Associate in Healthcare Information and Management Systems)
